# Bengal

# PC/104 Format Single Board Computer

## Overview

The Bengal is a low-power / high-performance single board computer (SBC) with a full complement of on-board I/O. Driven by the low power Intel® 22nm Silvermont microarchitecture, the Bengal provides up to 1.9 GHz of performance with quad, dual, and single-core processor options. Based on the industry-standard PC/104 format (4.23 x 3.77 inches), this SBC is an excellent solution for size, weight and power (SWaP) constrained applications.

Bengal is built on the new "PCIe/104 OneBank" format. Compatible with the PCI/104 Express format, it includes a legacy PCI connector, and a single bank high-speed PCIe connector. This provides flexible system expansion, while leaving more on-board space available for product features. The single bank connector is mechanically and electrically compatible with the existing PCI/104-Express Type 1 and Type 2 modules.

As with all VersaLogic products, the Bengal is designed to support OEM applications where high reliability and long-term availability are required. From application design-in support, to its 5+ year production life guarantee, the Bengal provides a durable embedded computer solution with an excellent cost of ownership.

# Highlights

- -40° to +85°C Operating Temperature
- Shock & vibration per MIL-STD-202G
- PCle/104 OneBank™ form factor
- 4th Generation Intel® Atom<sup>™</sup> processor ("Bay Trail")
  - E3845 (quad core) or
  - E3826 (dual core) or
  - E3815 (single core)
- Trusted Platform Module (TPM) security chip
- Up to 8GB SO-DIMM RAM

- Gigabit Ethernet (2 ports)
- VGA and dual mini DisplayPorts
- Mini PCle Socket / with mSATA support
- USB 3.0 and USB 2.0 ports
- Serial I/O
- SATA
- Digital I/O (18 lines)
- Fanless versions
- VersaAPI programming support
- Customization available in quantities as low as 100 pcs.

## Features

#### 1 Intel Atom "Bay Trail" Processor

Up to 1.9 GHz clock rate. Quad, dual or single core options. Low power consumption.

#### 2 High-performance Video

Integrated Intel Gen 7 graphics core supports DirectX 11, OpenGL 4.0, and H.264, MPEG-2 encoding/decoding. Analog and Dual mini DisplayPort video outputs; both outputs support multiple display modes including Extended Desktop and Clone.

#### **3 Trusted Platform Module** (on back side)

On-board TPM security chip can lock out unauthorized hardware and software.

#### 4 RAM (on back side)

Up to 8 GB DDR3L socketed memory, one SO-DIMM.

#### 5 Network

Dual Ethernet interfaces, autodetect 10BaseT / 100BaseTX / 1000BaseT with remote boot support.

#### 6 Industrial I/O

OOne USB 3.0 port and five USB 2.0 ports support keyboard, mouse, and other devices. Dual RS-232/422/485 serial ports, three 8254 timer/counters, I2C, PWM output, and audio support.

#### Digital I/O

Eighteen 3.3V digital I/O lines.

#### 8 SATA

3 Gb/s SATA port supports bootable SATA hard drive.

#### 9 Mini PCle socket

Supports Wi-Fi modems, GPS receivers, flash data storage with auto-detect mSATA flash storage support, and other mini PCIe modules.

#### 10 SPI Interface

Supports SPI and SPX devices, including low cost analog and digital modules

#### 11 Main Power Input

5V Input ±5%

- Stackable Expansion (on back side)
   Legacy stack-down PCI connector.
- 13 Stackable Expansion (on back side) High speed PCIe connector

#### Industrial Temperature

-40° to +85°C operation for harsh environments.

PC/104<sup>™</sup> Form Factor

Industry-standard PC/104 OneBank™ expansion.

#### MIL-STD-202G

Qualified for high shock/vibration operation.

## **Tailor Bengal to Your Exact Requirements**

Customization options are available in quantities as low as 100 pieces.

- Conformal Coating
- Custom Cabling
- Connector & I/O Changes
- Custom Testing
- Custom Labeling
- BGA Underfill
- BIOS Modifications
- Software and Drivers
- Revision Locks
- Custom Screening
- Application-Specific Testing
- And more –

## **Specifications**

General						
Board Size	PC/104 Compliant: 108 mm x 96 mm (4.23" x 3.77")					
Processor	Intel 4th Generation Atom E3845 (quad core), E3826 (dual core), or E3815 (single core). 512K L2 cache per core. Supports Intel 64-bit instructions, AES Instructions, Execute Disable Bit, and Virtualization Technology.					
Battery	Connector for external 3.0V RTC backup battery					
Power Requirements	Model Idle Typical			Max.		
(+5V) †	VL-EPMe-30EA	P 5.5	W	6.75W		7W
	VL-EPMe-30EB	P 6.5	6.5W			7.5W
	VL-EPMe-30EC	P 7.5	W	8.75W		10W
Input Voltage	5V ± 5%					
System Reset & Hardware Monitors	Major voltage rails monitored. Watchdog timer with programmable timeout. CPU temperature and fan speed monitoring. Push-button reset and power.					
Stackable Buses	PCIe/104 OneBank format. Legacy PCI connector. High speed PCIe connector.					
RoHS	Compliant					
Environmental						
Cooling Options	Bolt-on heat plate standard. Optional Heat sink, Heat sink with fan, heat pipe, and other adaptors available.					
Operating	Model Heat Plate** Heat Sink Heat Sink			at Sink + Fan		
Temperature 0	All Models -40°C to +85°C -40°C to +85°C -40°C to +			°C to +85°C		
	Ranges shown assume 90% CPU utilization. For detailed thermal information, refer to the VL-EPMe-30 Reference Manual.					
	**Heat plate must be kept below 90°C					
Airflow Requirements	Refer to the VL-EPMe-30 Reference Manual for detailed airflow requirements.					
Storage Temperature	-40° to +85°C					
Altitude	Operating* To 15,000 ft. (4,570m)					
	Storage To 40,000 ft. (12,000m)					
Thermal Shock	5°C/min. over operating temperature					
Humidity	Less than 95%, noncondensing					
Vibration, Sinusoidal	MIL-STD-202G, Method 204, Modified Condition A: 2g					
Sweep ¤	constant acceleration from 5 to 500 Hz, 20 minutes per axis					
Vibration, Random ¤	MIL-STD-202G, Method 214A, Condition A: 5.35g rms, 5 minutes per axis					
Mechanical Shock ¤	MIL-STD-202G, Method 213B, Condition G: 20g half-sine, 11 ms duration per axis					

† Represents operation at +25°C with +5V supply running Windows 8.1. Typical power computed as the mean value of Idle and Maximum power specifications. Maximum power is measured with 95% CPU utilization.

- Ø Derate -1.1°C per 305m (1,000 ft.) above 2,300m (7,500 ft.)
- \* For extended altitude information contact VersaLogic Sales Dept.
- **‡**TVS protected port (enhanced ESD protection)
- § Power pins on this port are overload protected
- ¥ Bootable storage device capability

n MIL-STD-202G shock and vibration levels are used to illustrate the extreme ruggedness of this product in general. Testing at higher levels and/or different types of shock or vibration methods can be accommodated per the specific requirements of the application. Contact a VersaLogic Sales Engineer for further information

## Accessories

Part Number	Description				
Cable Kit	•				
VL-CKR-BENGAL	Development cable kit . Includes VL-CBR-5015, 2005, 1008, 1204,				
	0804 (x2), 0702, 1015, and VL-HDW-105.				
VL-CBR-5015	System I/O paddleboard				
VL-CBR-2005	12" 1mm 20-pin DIO cable and paddleboard				
VL-CBR-1008	12" ATX power adapter cable				
VL-CBR-1204	VGA Interface Cable, 12-pin PicoClasp Cable to 15-pin VGA				
VL-CBR-0804	12" Ethernet cable (Qty. 2)				
VL-CBR-0702	20" SATA cable – latching				
VL-CBR-1015	1 m USB 3.0 Micro A plug to 3.0 Micro B plug				
VL-HDW-105	0.6" standoff package, metric thread				
Thermal Options					
VL-HDW-401	Thermal Compound Paste. For attaching heat plates and sinks.				
VL-HDW-406	Passive Heat Sink to mount on product heat plate.				
VL-HDW-407	Cooling fan for HDW-406 passive heat sink.				
VL-HDW-408	Heat Pipe system to mount on product heat plate.				
Cables					
VL-CBR-0401	6.25" ATX to SATA power cable				
VL-CBR-0503	0.5 m USB 2.0 Male A to Male Micro-B Cable				
VL-CBR-0701	19.75" SATA cable (non-latching)				
VL-CBR-1401	Cable assembly for (2) SPX modules				
VL-CBR-1402	Cable assembly for (4) SPX modules				
Audio					
VL-ADR-01S	USB to Audio Adapter, -25° to +85°C				
Memory					
VL-MM9-xxEBN	DDR3 PC3-12800 SO-DIMM memory module (1.35v)				
Drives					
VL-HDS35-xxx	3.5" hard drive (SATA)				
Hardware					
VL-HDW-105	0.6" standoff package (Metric thread)				
VL-HDW-108	Mini PCIe Module / mSATA hardware kit (metric thread) 2.5 mm				
VL-XCC104P	PCI Bus Vertical Extender 120 pins				
Miscellaneous					
VL-HDW-111	Half to Full Size MiniPCIe Adapter kit. Metal adapter and screws (2)				
VL-HDW-203	PC/104 extractor tool (metal)				
VL-EPH-V6	Display Port to Dual Channel LVDS converter				

### Take the Risk out of Embedded Computing

Whether it's selecting the optimum solution for your application, lending expertise during development, or on-time delivery of defect-free products, VersaLogic is here to make sure your project goes smoothly from initial concept through the extended life of your program.
